3.90

Duration / **Another Day Done**

Pale Ale - American / 4.4% ABV / 132 CAL / West Acre, Norfolk

3.70

Juicy | Mango | Citrus This Juicy Pale is the ideal beer to crack when your working day is over, with bags of tropical fruit aromas like peach and mango. Pours bright with a light haze and drinks juicy and crisp, ends with soft bitterness and a refreshingly dry finish for everyday enjoyment. At this session strength why not celebrate Another Day Done every day?

Blackjack Brew / **Squalor**

Lager - Dark / 5% ABV / 150 CAL / Manchester, Greater Manchester

3.70

Additions of Amber and Munich malt give a strong biscuity base alongside an addition of roasted malt which brings lots of colour and notes of cold brew coffee and bittersweet chocolate without being too 'dark'. A Hop combo of Perle and Phoenix brings traditional lager hop characteristics to the beer but less grassy and more spice and tobacco. Cold fermented over 2 weeks at 11C to produce delicate lager yeast notes before step cooling down to -1C for 2 weeks to crisp up and become clean, easy drinking.

Quantock / **Rocket To the Moon**

IPA - New England / 6.1% ABV / 61 IBU / 183 CAL / Taunton, Somerset

4.10

NEIPA V16! Inspired by the iconic viral meme, this beer is all about defying the noise and launching forward with unstoppable momentum. When the doubters say "can't," this brew says "watch me." Strap in, stay out of the slipstream, and get ready to ride a juice fuelled rocket straight to the moon. Built on our house pale base and fermented with our go-to fruity yeast, this NEIPA delivers a smooth, velvety body that carries a payload of flavour. Expect bursts of pineapple, passionfruit, grapefruit and peach, orbiting around soft citrus and berry undertones. It's bold, it's hazy, and it's got one destination, up!
